## Summary

I have dedicated my life to Health, Wellness and Spiritual awareness of the Medical Profession. Currently I am in search of a transitioning into a career allowing me to utilize my skills and adhere to an environment that is conducive to learning, growth as well as providing the scenarios that require my levels of expertise. Aspiring to be a scientist within the Biomedical and Biomedicine Technologies field my passion is in helping others. The responsibility of providing quality service when performing duties. The longevity of my career and willingness to absorb new ideas and suggestions has enabled me to expand my abilities in the Nursing field. Presenting the opportunity to gain the required experience and education of various facets of the Health Care Industry. I am an individual that is ready to accept new challenges and situations with the gumption to perform what is necessary in a genuinely compassionate caring manner. While maintaining the integrity of the company and also as a professional representative of where I am being employed.
